

Clearwater Seafoods

In 1976, John Risley and Colin MacDonald started Clearwater with a pickup truck and an optimistic vision at their Bedford Highway location in Halifax, Nova Scotia.

From its humble beginnings the company has grown into a globally respected seafood company and it continues to prosper from its' Nova Scotian home. Clearwater has charted a course in the global seafood industry inspired by the timeless fishing traditions and entrepreneurial zeal of its' Atlantic Canadian heritage.

Even though methods change, and the creaking of oars and the ruffle of wind and canvas have all but gone, the spirit of fishing remains in one of the world's oldest and most abundant fishing grounds. Clearwater has cultivated and maintained this spirit and culture in its worldwide operations and combined it with innovative product design, marketing techniques, technological advances and a foundation and philosophy of harvesting only the highest quality products to successfully grow from a small, local lobster distributor into one of the world's leading seafood companies.

Today, Clearwater is a progressive Canadian company, growing rapidly and forging ahead with one foot pointed squarely towards the future and the other planted firmly in the traditions and values of the past. Clearwater operates a fleet of 21 vessels, eleven of which are modern factory freezer trawlers and eight processing and shipping operations throughout Eastern Canada, a harvesting operation in Argentina and a processing plant in China to serve customers which span over 40 countries globally.

Clearwater Premium Hardshell Fresh™ Live Lobster come from the cold depths of the North Atlantic ocean. Clearwater Live Lobster offers premium quality and yields that are an unmatched value to the operator. Lobsters are harvested at peak quality when shells are hardest, yielding up to 50% more meat than soft shell lobsters. Clearwater is the inventor of the world's first Dryland Pound lobster holding system, providing access to live, fully meated lobster year round.
