

HeartBrand Beef, Inc.

Heartbrand Beef is located in South Texas and is the only source for 100% Akaushi all Natural Kobe beef available in the United States. The original herd arrived from Japan in 1994 and the growth of the breed has been under direct supervision by the same team. Heartbrand Beef's completely integrated system allows control of every detail, from genetics to water sources to grazing management to slaughter and packaging. Our program is designed to provide consumers the healthiest and highest quality natural Akaushi beef.

100% AKAUSHI ALL NATURAL KOBE BEEF, 100% source verified, raised in USA. Akaushi meat contains extremely high amounts of marbling with a fatty acid composition that is significantly lower in saturated fat and cholesterol. It is also higher in monounsaturated fat and Conjugated Linoleic Acid (CLA), a very beneficial and essential fatty acid in human nutrition, and is a significant source of oleic acid – the compound in olive oil that the USDA touts as good for your heart. Akaushi beef is consistently graded above USDA Prime in marbling content, is healthier due to its unique fatty acid composition and is superior in taste and tenderness when compared to other domestic beef.
