

# S. Wallace Edwards and Sons

**S. Wallace Edwards & Sons Inc.** has produced Virginia country hams, bacon and sausage for 83 years. The company cures and smokes its pork products in the centuries old American Indian manner from its original area in Surry, Virginia. In 1926 Edwards replicated that original process in its signature Wigwam ham (the longer aged Virginia ham with its distinctive flavor and rich mahogany appearance). The result was... and still is...a uniquely flavored, prize winning ham appreciated by country folk, gourmards, and chefs alike. Today, in addition to the Wigwam ham the company offers milder flavored hams, dry cured bacon and smoked sausage.

Produces "dry cured" country, Virginia and Wigwam hams, along with "dry cured" and bacon and sausage products. All products are then smoked from real hickory wood.

**Edwards dry cured hams are aged as follows:**

Edward's Country Hams- 90 days.  
Edward's Virginia Hams- 4 to 6 months.  
Edward's Wigwam Ham- 10 to 12 months.

Edward's dry cured products are sold and used in upscale retail stores such and is the preferred brand at 1,000's of white table-cloth restaurants nationally for dry cured ham and bacon products.

**SHIPPING INFO:**

Because of this dry curing process, Edward's products are some of the most durable cured meats available on the market, able to survive **10 days or longer without refrigeration** at temperatures up to 120 degrees. Even though we ship our products as non refrigerated, rest assured that when they arrive at your door at a warm temperature they are still delicious and safe to eat.
