## Dulce de Leche

**DULCE DE LECHE “Santa Fe”**( DOOLsay duh LAY-chay) - Milk Caramel Spread, also known as **Cajeta de Leche, Arequipe and Manjar Blanco**, is an old traditional delicacy widely used in all of South and Central America. This delicious & nutritious caramel-like product, combining the main ingredients of milk and sugar, is boiled for several hours until a thick, golden, delicious caramel is accomplished. The highest standards are applied in our large, state of the art plant ...more than 20 years of experience & exact formulations maintain the same high quality from batch to batch, assuring the finest quality product. We are Kosher certified to further assure our commitment to have the best possible product (KOF-K # 2180).

We make different types of Dulce de Leche, used by bakeries, restaurants and donuts shops, as fillings and decorations in a large variety of pastries, cakes, donuts, cookies, ice cream flavoring, etc.

### “REPOSTERO” (Ray-Post-Aero)

Dulce de Leche or Cajeta de Leche “Repostero” is made mostly for the baking industry. It has a dark caramel color and a smooth, firm body that is very easy to work with. It can be used as a spread or in between layers of cakes and to make cake decorations. In all kinds of ready-baked pastries, try using Dulce de Leche “Repostero” as a filling or spread instead of any other filling or spread. The results will be very satisfying even to the most discriminating critics.

### “AREQUIPE”(R-A- Keep-A)

Dulce de Leche “Arequipe” is lighter in color and body, is used in bakeries, restaurants, churros, and donut shops. Try it as a filling in pastries and as a topping on cheesecakes and flans. Restaurants can make delicious desserts without going out of the way to make new recipes.

**PORTO’S BAKERY of Glendale, California, the RBA’S winner of the “BEST BAKERY AWARD for the year 2004”, uses Dulce de Leche “Santa Fe”**

1343532	1 / 2-gallon pail (24 lbs net)	Repostero
1343102	1 / 2-gallon pail (24 lbs net)	Arequipe
