

20 POINTS OF INTEREST

1. Pumps are provided with cased products so that our customers get portion control and do not have to use food-measuring cups to measure out chemical products.
2. There is an MSD sheet in each case to meet the distributor's requirement to have the MSD information on the premises when the product arrives.
3. Spanish inserts are included with usage directions and safety information. We believe over 50% of the people who use our products speak Spanish, and we provide these sheets to address their needs.
4. Crack-and-peel labels appear on all products, and the products may be diluted and used in spray bottles. It is a legal requirement that these bottles be properly marked.
5. Test strips are in each case of disinfectant and sanitizer products so that proper usage can be determined to meet health code requirements.
6. Four-sided bar coding makes check-in and product identification easy.
7. Reverse-printed labels are used so that aggressive products, if spilled on the label, do not attack the instructions and they remain legible.
8. Heat-sealed tops are used to eliminate product leakage on our trucks.
9. Level I aerosols are formulated so that no special caged handling is necessary.
10. All suppliers undergo annual inspection by Q.A. Most chemical suppliers have no rodent control programs in their plants. SYSCO brand suppliers do.
11. The medical information number on product labels is not a "just-for-questions" call number. This service costs, on average, \$65 a call.
12. Fax back number for MSDS is a convenience for customers who have misplaced MSD sheets or need additional copies.
13. Icons for easy directions and ease of use ensures that employees will have a faster and better learning process.
14. Breadth of line—SYSCO provides everything from one supplier for all your cleaning and sanitation needs.
15. Products are delivered right to your door and storeroom.
16. There is a 100% guarantee on all SYSCO brand chemical products.
17. Employee education programs and knowledge that the Marketing Associate receives help you handle all your cleaning and sanitation needs.
18. SUPC numbers appear on all cases for ease of identification and reordering.
19. Specialists, Brand Managers and Merchandisers are all available for questions and answers about SYSCO chemicals.
20. SYSCO brand and quality=peace of mind.
